

# Sponsor a Station

Empower your residents, tenants, and/or customers with access to a transportation option that's green, fast, and fun. A sponsored station is an amenity for residents, tenants, or customers that makes getting around a breeze. Support sustainable transportation in the region.

## Key Benefits

Good for your people, good for your neighbors

A socially distant, fun way to travel

Increase foot traffic near your business

Invest in your community

## Pricing

Our smallest station contains 23 docks, parties can sponsor larger stations if space allows. For each 4 additional docks, add \$10k to the Year 1 amount.

Type	Year	Price	Details
Capital Cost	1	\$95k/ up front	Includes a 23 dock station and bikes (capital equipment, cost of installation)
Operating Cost	1-5	\$20k/ annually	Includes ongoing operations such as cleaning, technical maintenance, rebalancing, etc.

## How it Works

### 1 Station location and size

Our siting experts will help your team determine the best location for a Citi Bike station. Stations can be located in roadbeds, on sidewalks, or in plazas, and at varying sizes.

### 2 Install and maintain

Citi Bike stations do not require bolting to the ground or excavation. A station takes approximately 2 hours for our team to install. Citi Bike takes care of ongoing maintenance and cleaning.
